Master of Science (Information Technology) University of North Carolina at Charlotte.

Instructor Name: Nadia Najjar.

Prepared By Harshini Koduru.

Application Name: PW Events

TABLE OF CONTENTS

User Manual

1. User:

The site users can be anyone who has interest in attending nearby events or for hosts who want to publish their events to the people out there. User can be a guest user who can just view upcoming events or members who can create and save interested events or rsvp for the events in their account.
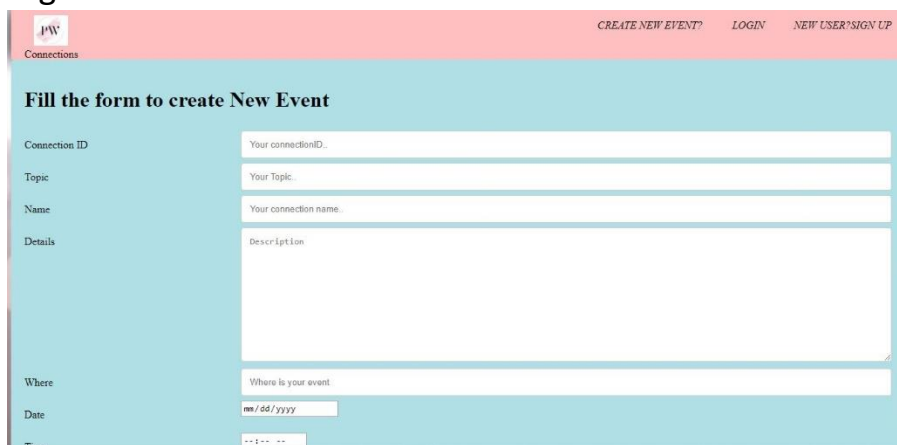

2. Main Intent of the Application:

As our lives become more digital and interaction becomes more impersonal, it's more important than ever to meet new people, discover new experiences, attend exciting events and engage with your community. At PW EVENTS, our goal is to build tools that makes it just a little bit easier.

3. Sign up:

In order to become a member a new user has to click on the newUser?Signup button that is on the top right corner of the page where they have to give some details like name, email address, password etc., in order to become a Member and then he can join any event or host his event so that interested people can attend.
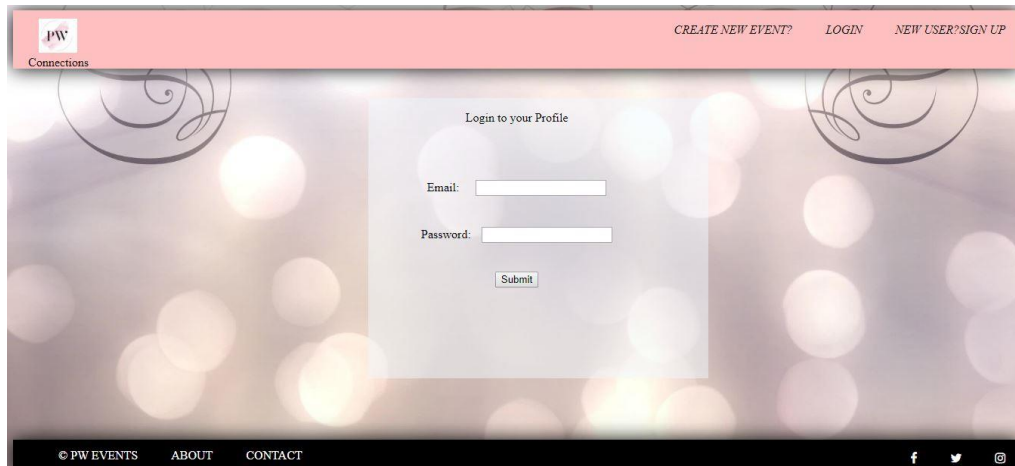

Note: Remember your password and email which you've provided during registration

4. **Login:**

Once you are registered as a member, further you can use your credentials email and password, to login into your account.

5. **Events:**

On the top left of the page just below the Application LOGO, you can find events link, this will take you to the upcoming events page, where you can find all the events that are either hosted by PW events or independent members.

Note: No login is required to view this page
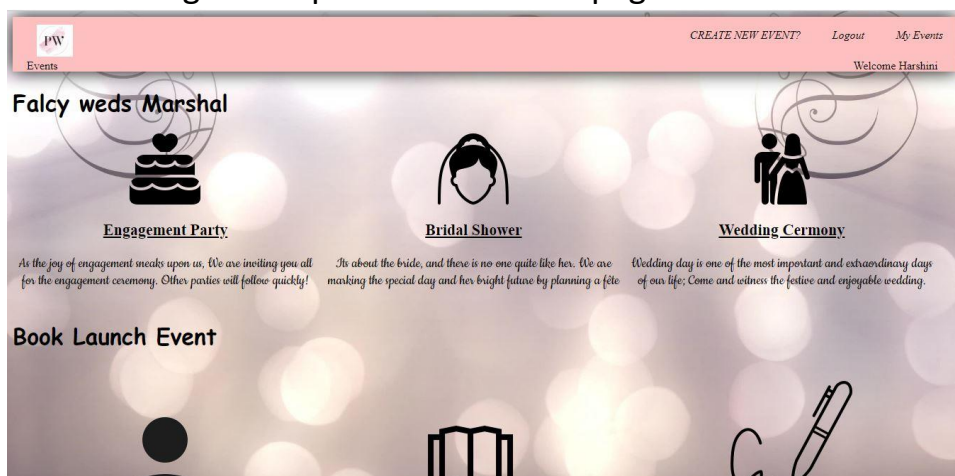

6. Connection:

Each event name in the events page is the link which redirects you to the respective event page which provides you with more details about the event. There you can find location, date, time, accommodation details about the event. It also provides you an option to make RSVP for that event. A registered member can save his decision i.e., yes/no/maybe to his "my events" page.

NOTE: Only registered members can save their decision.
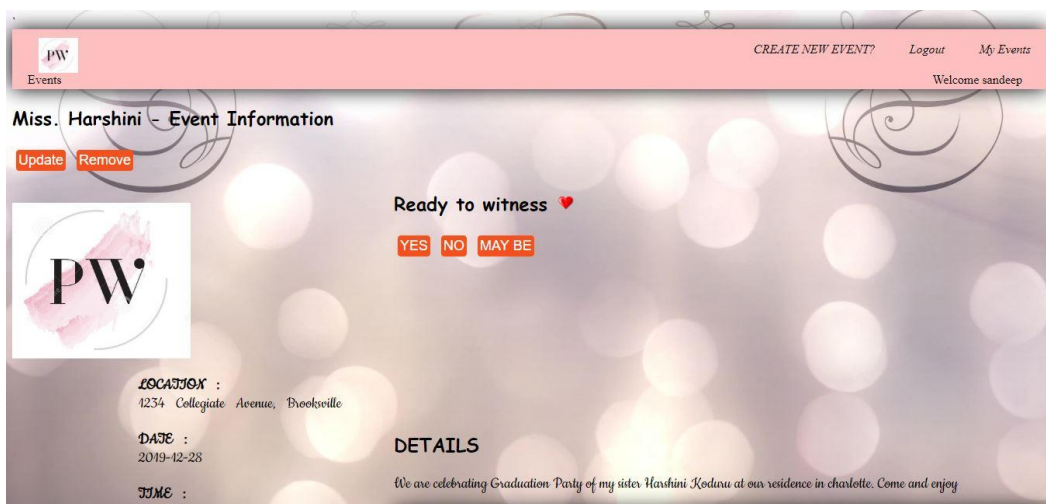

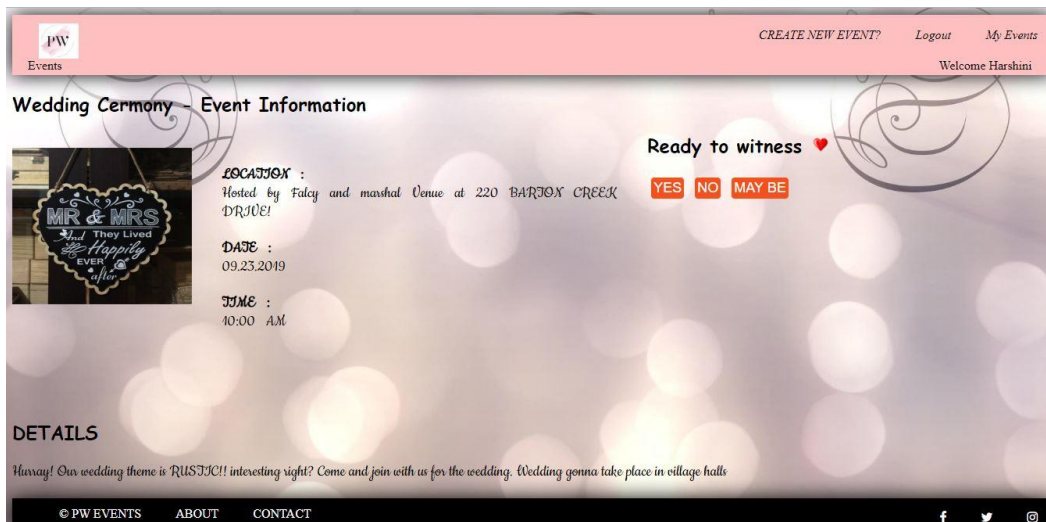

7. My Events:

Only members have this link visible on their navigation bar. This links displays the page where all the user interested events are saved. Here a member can update his decision, or he can delete the event from his my events page.

OPTIONS AVAILABLE:

UPDATE: This button Redirects the user to the respective event page, where the user can update his/her decision from Yes to No or NO to Maybe etc.,

DELETE: This button deletes the event from the user's list and refreshes the page to updated list.

8. Start a New Connection:

A site member can host his/her own event on this website by filling the form available in the Start a new Connection link which is on the top right on the navigation bar. They must provide event details like topic, event name, date, location, about etc., and then click "create new Event" button at the bottom of the page.

Note: These required fields are validated. So, it accepts certain inputs only.

9. Log Out:

When a user clicks on the log out button they get logged out of the application and are redirected to the home page.
